

How to Activate Octopus Samsung

Step 1. Connect your box/dongle to PC

Step 2. Install the latest version of Octopus Samsung software

Download: <https://octopusbox.com/en/download/software/>

The screenshot shows the website octopusbox.com/en/download/software/. The page has a dark blue header with the Octopus logo and navigation links: Products, Features, Downloads (highlighted), Help Center, Dealers, and Buy Now. There are also social media icons and a language selector (English, Русский, Español, Português). Below the header, there's a search bar and a 'Software' section. The 'Software' section lists various installers and tools. The 'Octopus Samsung Installer v2.8.5' is highlighted with a red box and a red arrow. Below it, the date (24.12.19) and size (136.96 MB) are listed, along with a 'Download' link. On the left side, there's a 'Latest News' section with three entries, and a testimonial section titled 'Octopus - is my choice!' with a user named Tigran Nersisyan.

Step 3. Open a folder where Octopus Samsung software was installed.
Run Updater.exe (located inside the Octopus Samsung software folder)

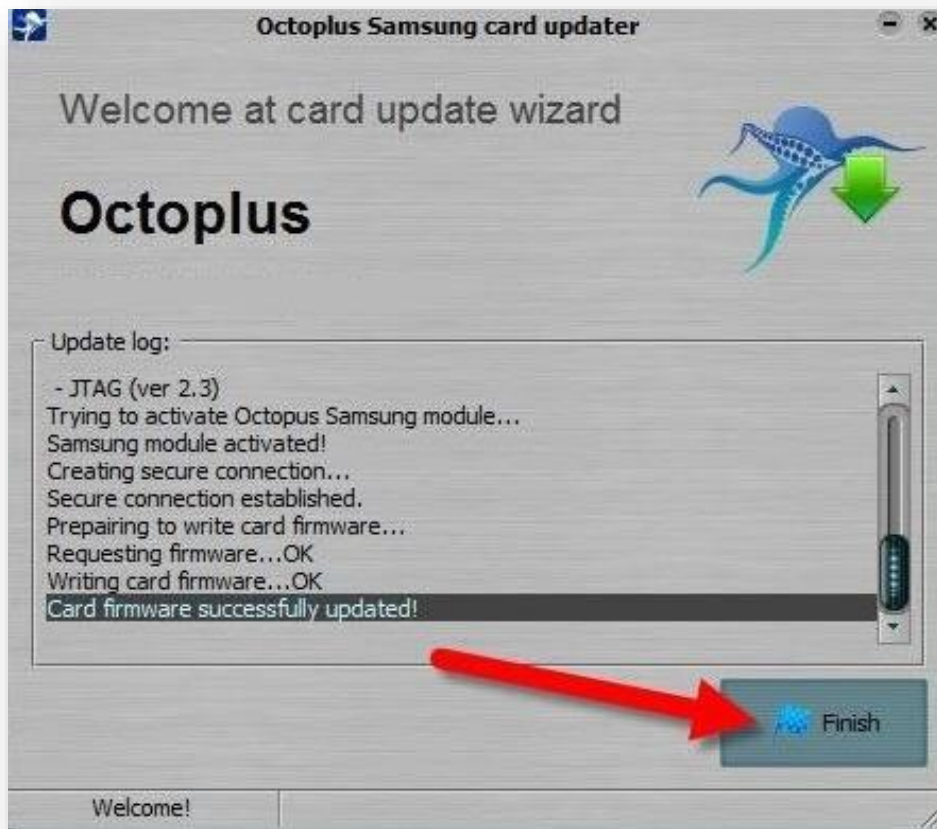

Step 4. Choose "I have the activation string" and press "Next"

Step 5. Complete the activation process with the activation code you received
Hint! Copy (Ctrl+C) and paste it (Ctrl+V). Press "Next"

Step 6. After successful activation (you can see it in the log window), press "Finish" button

Done! Now you can launch Octopus Samsung software and use it straight away!
