Registering your Touch 2 or Touch 2 with Go

To make the most of your Toyota Touch 2 you will need to set-up an online account and register the device.

If you have Toyota Touch 2 with Go, you have access to a range of additional connected services and a free one-year subscription to the mobility pack.

This includes access to Toyota Real Time Traffic, Google Street View™,

Parking information, local Online search and a range of useful apps. With Go Plus you also have 3 years of map updates.

To activate and access these services you need to set-up an account and register your device.

On the computer:

1. Create an account on
   www.toyota.co.uk/mytoyota

2. When your account has been
   successfully created you will
   receive a confirmation email.

In the car:

3. Pair and connect your phone to
   your Touch 2 device (page 10)

4. Press the Toyota Online button
   on your Touch 2

5. Press Connectivity and enter
   your Username and Password

6. You can now use your Touch 2.

Connecting your phone for calls, music and Internet:

To pair via Bluetooth for Phone calls and music streaming:

- Activate Bluetooth on your smartphone and make sure it is discoverable

- Press the 'Setup' button on your Touch 2

- Press 'Connectivity' then 'Bluetooth' & 'Search device'

- Select your phone and press Agree to connect

- Your phone is now paired for calls and music

To connect for Internet connectivity (tethering)*:

- Activate Personal/ Portable hotspot or Bluetooth tethering on your smartphone

- Press the 'Setup' button on your Touch 2 with Go

- Press 'Connectivity' then "Connect me to the internet"

- Select your phone and wait for the connection to be established

- Your Touch 2 with Go now has access to the internet.

*Check your phone manual for more information

Telephone functions making calls:

Press phone menu key on the steering wheel control or press Voice recognition* button.

There are 3 ways to make a call:

1. Using the key pad
Type a number

### 2. The phonebook
Select a Contact

SMS: how to send* and receive a text message

Touch 2 let's you stay in control of your text messages.

To access your texts:

1. Press the Phone button and then Messages icon. Texts are shown in the Inbox tab

2. Select the text you wish to read

3. To reply press 'Reply Free Text' which allows you to manually enter a short message OR touch

'Reply Template' to select a pre-loaded prepared message and select OK

4. To create and send a new text message select the Create New tab. Here you have the option to Create Message, or Use Template.

*Check phone compatibility with this feature

Multimedia / music sources:

Select from a range of music sources via the Media menu:

Radio (AM/FM/DAB)

Smartphone/ MP3 player via USB

Bluetooth streaming

USB key/stick

Connect your device or media source to the USB port – music on the USB/MP3 player will start playing automatically.

To switch between music sources press media button and choose the source that you want to listen to.

To navigate through your music library, touch BROWSE. You can then search by Playlist, Artist, Album, Song or Genre.

Satellite Navigation with Touch 2 with Go:

Push the Map/Nav button to display the map on screen and use the Nav button on the touch screen for the Navigation menu.

Manual address entry

Allows you to enter a destination via the Address tab using a post code or full address. Pick from 3 route options to begin navigation.

Point of Interest (POI):

Allows you to select a point of interest via the POI tab. Search for a POI at your current location or your final destination. Pick from 3 route options to begin navigation.

Send address to car

Enables you to select an address or POI on your computer and send it to your car via your phone's Bluetooth. Log in at: www.toyota.co.uk/mytoyota

Online features and services:

Users of **Touch 2 with Go** have access to Toyota Online Services.

These services include real time traffic updates powered by TomTom Traffic, local online search function, Google Street View™, Parking information and a range of in-car apps to assist you in your journey and at your destination.

To use Connected services you need to ensure that your Touch 2 with Go is connected to the Internet – see the section on connectivity for details.

Toyota Real Time Traffic powered by TomTom Traffic

Alerts you to slow moving traffic along your journey and provides you with detours to avoid jams and blockages.
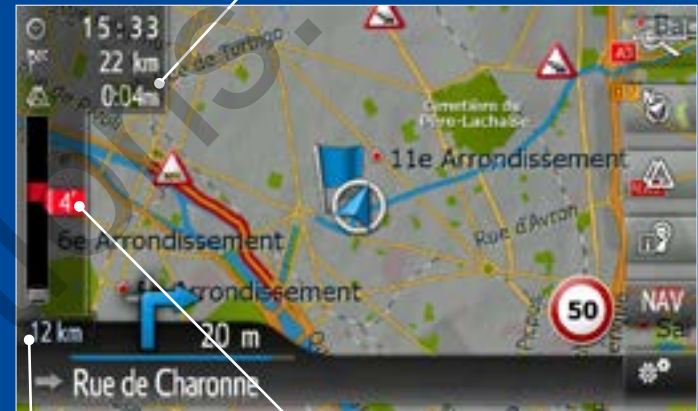

You only need to activate real time traffic once; to activate it:

- Access the Navigation Menu from the navigation screen
- Select Traffic Messages and Settings
- Select Traffic information over Internet
- Select the Frequent Auto option from the traffic menu.

Using Real Time Traffic

Total time lost to delays

Distance to traffic delay

Length of each delay

Online Search and using Google Street View™:

Find POIs online, view images and navigate:

- Click the Toyota Online button and select Online Search

- Select your preferred search provider (Google, TomTom, Here)

- Set your search location

- Enter your search criteria by name (i.e. Premier Pizza) or category (Restaurant)

- Choose POI from the list.
