

You can activate **Chinese Miracle (Test Version)** RDA / Spredtrum / MediaTek on your **Infinity-Box (BEST)**

- Chinese Miracle (Test Version) Activation is **FREE**
- After Activation you can use Chinese Miracle (Test Version) **v0.xx**

VERY IMPORTANT:

- You must use **Infinity-Box (BEST) v2.08 or higher** after Chinese Miracle-2 (Test Version) Activation!
- If you have DC-Unlocker Activation, use **DC-Unlocker Client version 1.00.1190 or higher** after Chinese Miracle-2 (Test Version) Activation!

(BEST) Dongle and Chinese-Miracle-2:

- It is NOT POSSIBLE to activate latest **Chinese-Miracle-2 (Release)** on (BEST) Dongle right now
- If you want to use latest **Chinese-Miracle-2 (Release)** software **v1.xx**, you should buy and use **Infinity-Box Dongle**

How to Activate:

1. Login to your **Infinity Online Service (IOS)** account
2. Go to "Products" menu
3. Select "Software activations" item
4. Select "**Chinese Miracle-2 (Test Version)** software activation for Infinity-Box (BEST)"
5. Click to "Buy" button
6. You will see a confirmation and Activation status
7. Follow by given instruction and update your Smart-Card firmware - [Smart-Card Update Manual](#)
8. Use new software

How to know your Infinity Online Service Login / Password:

- Each Infinity-Box User already has a free Infinity Online Service (IOS) Account.
- Read your Login/Password from your Dongle and you can login into IOS: [Infinity-Box - Online Service](#)

Where to get software:

1. Go to [\(Test Version\) software downloads](#)
2. Download and install **InfinityBox_install_CM2xxx_v0.XX.rar**

How to fix problem with Dongle Firmware update:

- [Box/Dongle update: Server reported error:\[0051\] Not translated](#)
- If you have **FT-SCR2000 Card-Reader** you should update your Card-Reader Drivers:
Download [Drivers](#) and read [Instruction](#)

If you have SPT-Box Activation and it stop to work after Smart-Card update:

1. Go here: [SPT-Box software activation for USTPRO2 and Infinity-Box](#)
2. Download Activator from [SPT-Box Support Area](#)
3. Run Activator.exe
4. Enter your data
5. You will get user.ini file
6. Copy user.ini into folder with SPT software
7. Run SPT.exe - it would not run
8. Run SPT.exe again - it will run and work well
