

Installation Manual

(QPE-AUDI16-CMD V1.0)

Warning / Caution

Warning

- When installing the main unit, do not remove or alter existing vehicle fasteners, including nuts, bolts, screw, clips, and fittings. Never detach, move or alter existing vehicle wiring, including electrical grounds and straps. Alteration of existing vehicle components may make vehicle unsafe to operate. Should be no any electronic devices or magnetic pole around installation place.
- Air bags are vital part of a safety system. Never install main unit in a way which will alter air bag wiring or interfere with air bag deployment. Air bags must function properly in the event of an accident.
- Before installing, check the location of pipe, tank, electrical cables and others.
- Read and follow the instruction manual.
- Wiring location must not interfere driving, get in or out from car.
- Use electrical tape to insulate the ends of all wires, even if they are not used. Proper insulation prevents arcs, shocks and fires.
- When installation is complete, test all vehicle electrical systems to ensure they operate correctly, including lights, horn, brake lights, and emergency flashers.
- According to our sales policy, any problems caused by user's mistake, careless can not be guaranteed.

Caution

- All steps of installation should be done by well-trained specialist.
- During installation ignition key should be taken off and after all installation finish connect power cable with interface for the last step.
- Do not install the main unit in places where it may be exposed to dew condensation (around the air conditioning hose, etc), or in locations where it may come in contact with water, high levels of moisture, dust or oily smoke
- Install wiring in a manner in which cables will not come in contact with metal parts. The wiring may be damaged by contact with metal parts, resulting in fire and shocks. Avoid all contact with hot surfaces when wiring the main unit. High temperatures may damage wiring, causing shorts, arcing and fires.
- Kindly check all parts are in the box, when receiving the product, if anything missing, inform to the supplier or manufacturer.

1. Specification

1.1 Main Specifications

1. Car Compatibility

AUDI Cars in combination with MMI 4G

2. Components

Interface* 1EA

3. MULTIMEDIA INTERFACE Input Specification

2 * A/V Input (Video External Input).

1 * CVBS(Rear Camera) input

1 * CVBS(Front Camera) input

1 * Analog RGB input (Navigation)

1 * LCD input (Car System input)

4. MULTIMEDIA INTERFACE Output Specification

1 * LCD Output

5. Power Specification

Input Power : 8VDC ~ 18VDC

Consumed Power : 5WATT

6. Switch input mode

- External display skip function : Able to control each video input by DIP switch
- Able to change input mode by remote control
- Able to connect rear camera by either CAN or rear lamp cable

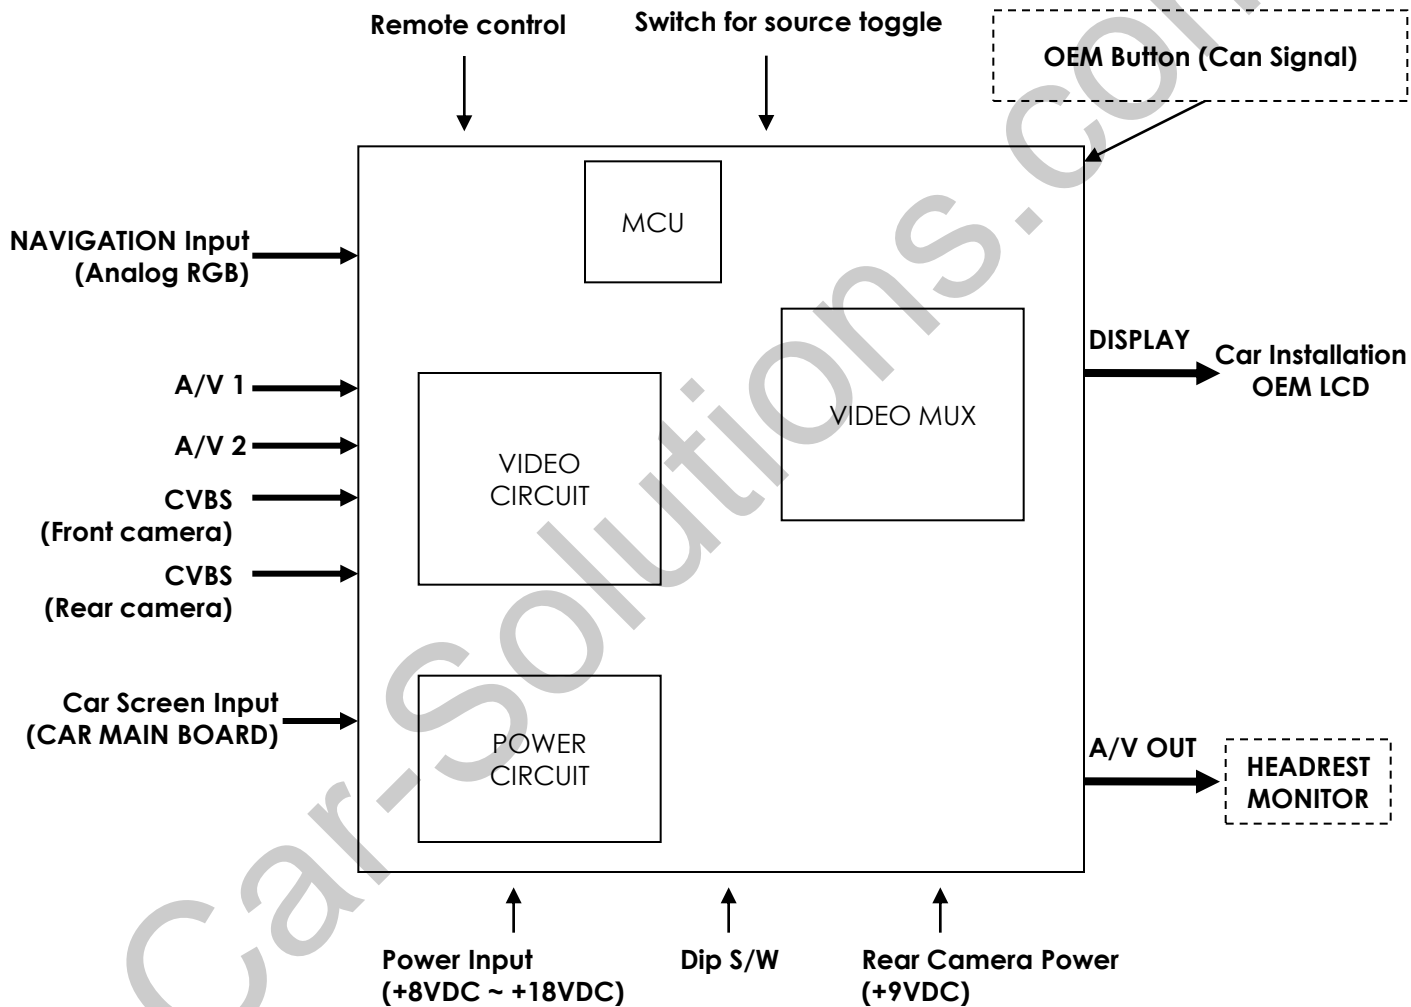

1. Specifications

1.2 Features

- External Device(DVD, DTV) is controlled by Multi Media Touch GUI
- It is possible to change the position of AV mode screen but the position of OEM screen is not changed.
- Improvement in Screen Display (User friendly interface)
- Able to change the mode by OEM button
- Power for rear camera is supplied(Activates when shifting into reverse)
- Dynamic PAS(Parking assistance system)+PDC, moving parking line according movement of steering wheel

2. Installation

2.2 Installation

Rear View Monitor

Rear View Command

- ① Disassemble the monitor and the command from Car. Pictures are attached for your reference.

As you can see above, an original LCD cable of monitor is connected to the command

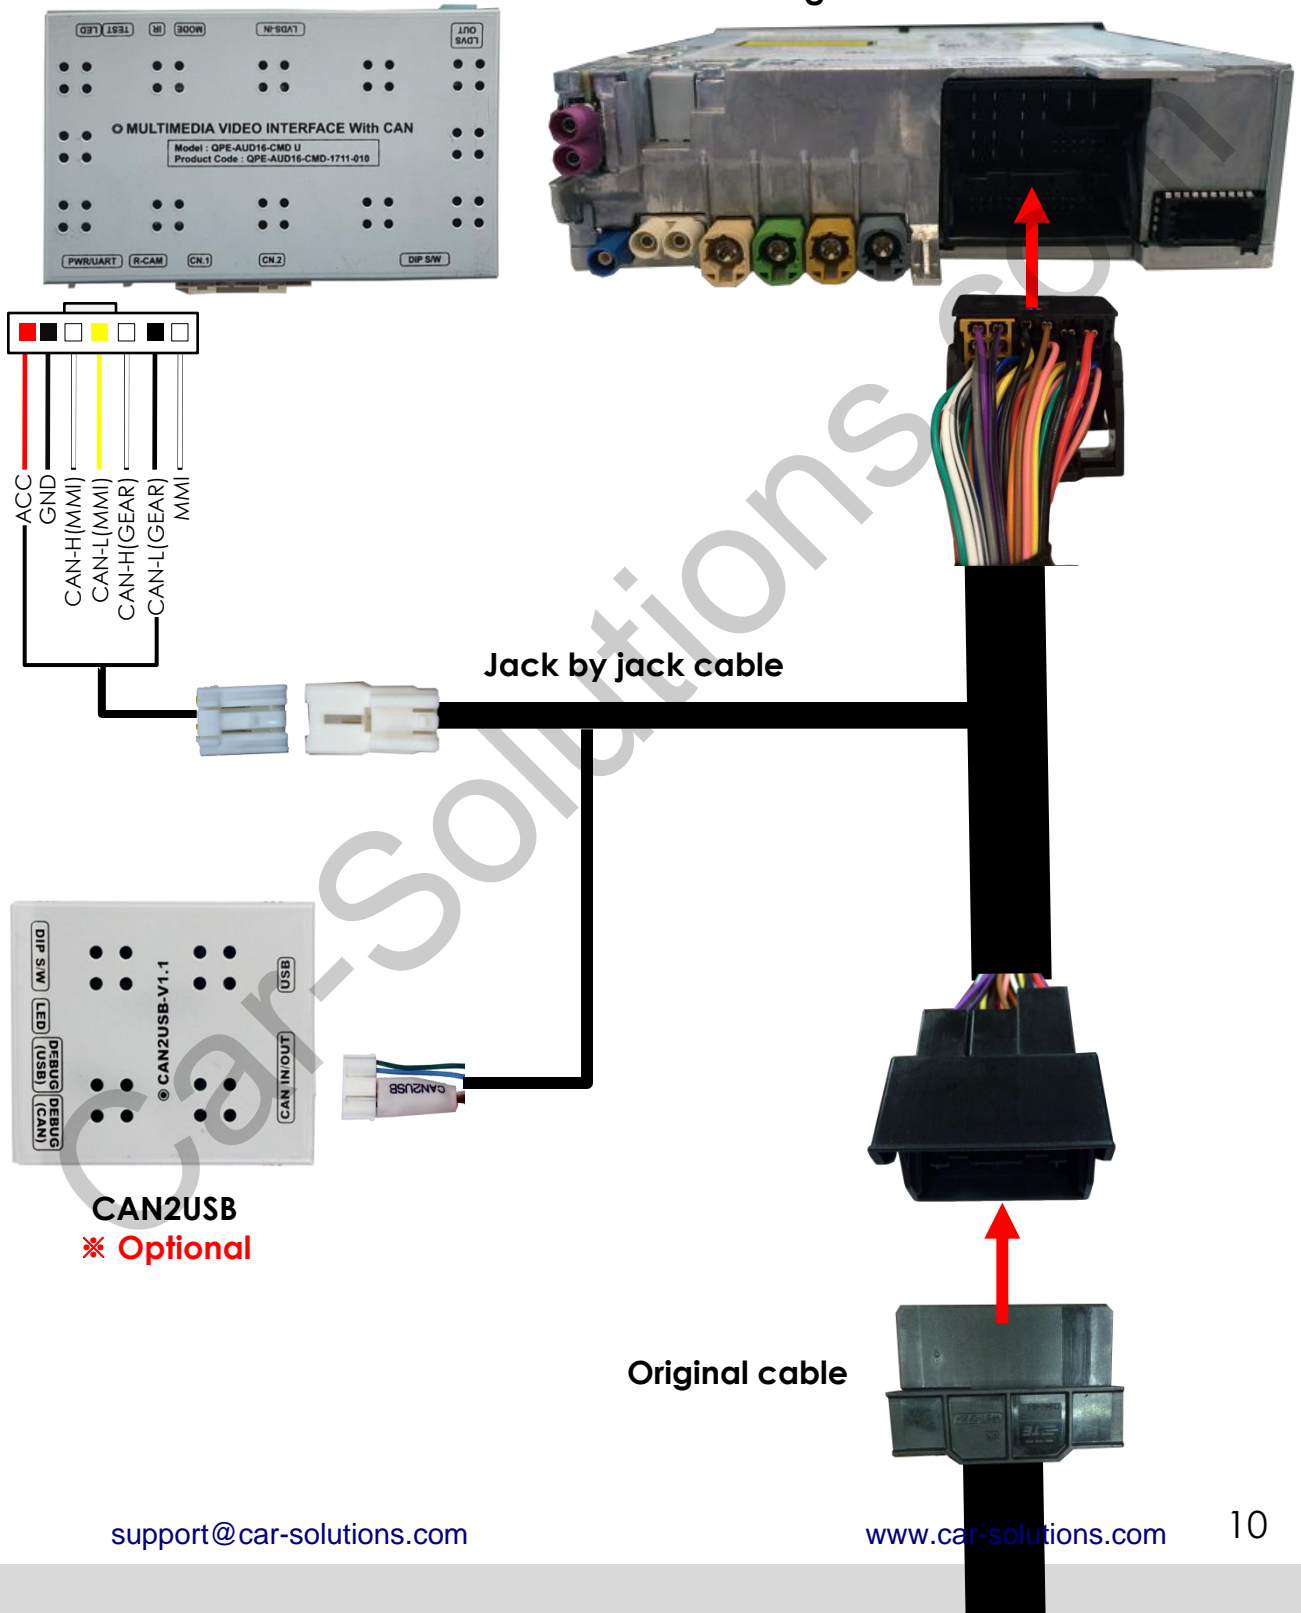

- ② Connect the original LCD cable to "LCD-OUT" of the Interface after disconnecting it from the command.

And connect the LCD cable enclosed in our package to "LVDS-IN" of the Interface. Then connect the opposite end of the cable to the spot that the original LCD cable is connected of command

2. Installation

2.2 Installation / Jack by jack cable connection (AUDI TT, A4)

Original command

2. Installation

2.2 Installation / CAN Connection (A6, A7)

※ Install with the jack by jack connector of power cable after cutting.

1) GEAR, PAS

※ Remove Center Air Ventilation to find OEM cables

- Connect supplied CAN-H(GEAR)wire (White) to OEM CAN-H wire(Orange + Green)
- Connect supplied CAN-L(GEAR)wire (Yellow) to OEM CAN-L wire(Orange +Brown)

2) MMI

※ Find MMI wire from the command behind

- Connect supplied MMI wire (Orange) to OEM MMI wire(Yellow + White)

3. Settings

3.1 DIP Switch

※ Example of DIP S/W use

- Use input mode : A/V2, A/V3
- Use original navigation
- External rear camera

※ ON : DOWN / OFF : UP
Default: #8 OFF

- ▷ DIP S/W : 1 → ON (OEM Navigation use)
- ▷ DIP S/W : 2,3 → OFF (A/V1, 2 display)
- ▷ DIP S/W : 4 → OFF (A/V3 display)
- ▷ DIP S/W : 5 → OFF (High Resolution)
- ▷ DIP S/W : 6 → OFF
- ▷ DIP S/W : 7 → ON (Display external rear Camera)
- ▷ DIP S/W : 8 → OFF

PIN	Function	Dip S/W Selection
1	Displaying RGB input	ON : RGB mode skip OFF : RGB display
2	Displaying A/V 1	ON : A/V 1 mode skip OFF : A/V1 mode display
3	Displaying A/V 2	ON : A/V 2 mode skip OFF : A/V2 mode display
4	Displaying A/V 3	ON : A/V 3 mode skip OFF : A/V3 mode display
5	No use(Off)	
6	Car model	ON: TT OFF: TTs, R8 (other cars will be selected from the car model on the factory mode)
7	Setup of rear camera use	ON : CVBS4 OFF : MAIN
8	Monitor Resolution	ON : 800x480 OFF : 1280x480

※ Please make sure to disconnect the power cable of the interface and reconnect the power cable again to apply the dip switch setting

whenever changing DIP switch.

support@car-solutions.com

Otherwise, DIP switch setting will not be applied.
