

# Manual Installation

## (LVTX-1CH-Grand Cherokee)

---

# Warning / Caution

## Warning

- When installing the main unit, do not remove or alter existing vehicle fasteners, including nuts, bolts, screw, clips, and fittings. Never detach, move or alter existing vehicle wiring, including electrical grounds and straps. Alteration of existing vehicle components may make vehicle unsafe to operate. Should be no any electronic devices or magnetic pole around installation place.
- Air bags are vital part of a safety system. Never install main unit in a way which will alter air bag wiring or interfere with air bag deployment. Air bags must function properly in the event of an accident.
- Before installing, check the location of pipe, tank, electrical cables and others.
- Read and follow the instruction manual.
- Wiring location must not interfere driving, get in or out from car.
- Use electrical tape to insulate the ends of all wires, even if they are not used. Proper insulation prevents arcs, shocks and fires.
- When installation is complete, test all vehicle electrical systems to ensure they operate correctly, including lights, horn, brake lights, and emergency flashers.
- According to our sales policy, any problems caused by user's mistake, careless can not be guaranteed.

## Caution

- All steps of installation should be done by well-trained specialist.
- During installation ignition key should be taken off and after all installation finish connect power cable with interface for the last step.
- Do not install the main unit in places where it may be exposed to dew condensation (around the air conditioning hose, etc), or in locations where it may come in contact with water, high levels of moisture, dust or oily smoke
- Install wiring in a manner in which cables will not come in contact with metal parts. The wiring may be damaged by contact with metal parts, resulting in fire and shocks. Avoid all contact with hot surfaces when wiring the main unit. High temperatures may damage wiring, causing shorts, arcing and fires.
- Kindly check all parts are in the box, when receiving the product, if anything missing, inform to the supplier or manufacturer.

## 1.1 Main Specification

### 1. Compatible Vehicle

Jeep Grand Cherokee 2014, Dodge Durango 2014

### 1. Main components

Multimedia Interface \* 1EA

Sub-board \* 1EA

### 2. MULTIMEDIA INTERFACE input specification

3 \* A/V (NTST&PAL) input

1 \* CVBS(Rear camera) input

1 \* Analog RGB

1 \* LCD input (Car system input)

### 3. MULTIMEDIA INTERFACE output specification

1 \* LCD output(LCD performance)

1 \* Audio output

2 \* CVBS output

### 4. Power Spec

- Input Power : 8VDC ~ 18VDC

- Consumption Power : 4WATT, Max

### 5. Switch Input mode

-AV mode skip : Able to skip or display AV mode by controlling DIP Switch

-Able to switch the input mode with the remote control

-Possible to switch Input mode with switch for source toggle

-Possible to switch mode through OEM button on the steering wheel due to CAN connection

# 1. Specifications

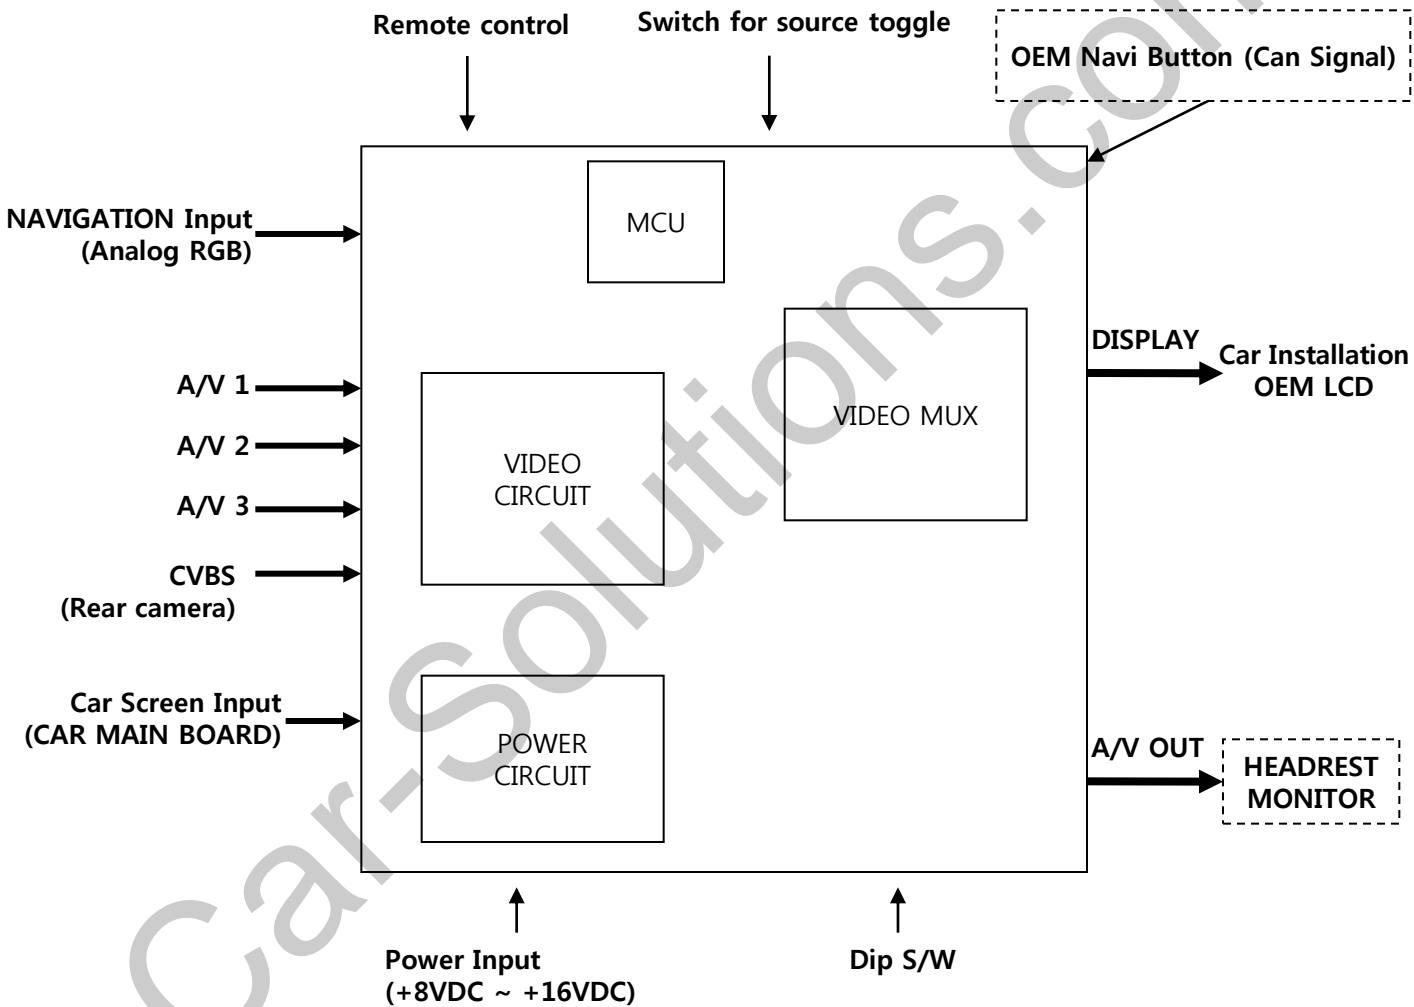

---

## 1.2 Features

- Able to adjust DVD, NAVI display on screen
- Improved Screen Display (user-oriented interface)
- Add SAFE function (Displaying the main page while driving)

# 2. Installation

## 2.1 Installation Diagram

## 2. Installation

### 2.3 Installation

The back side of OE monitor looking is like this picture .

Please remove the back cover .

Please remove OE board inside and please disconnect the OE steel plate.

# 2. Installation

## 2.3 Installation

Please find out OE FPC cable and OE touch cable.

OE Touch cable

① Please disconnect the cables.  
After that, please remove  
OE board .

# 2. Installation

## 2.3 Installation

- ① Please mount provided sub-board as like the below picture (please use a kind of double tape.) And please connect OE FPC cable to “LCD-OUT” connector and OE touch cable to “T/S INPUT” connector.
- ② Please connect provided 60P FFC cable to “COMMAND IN” and 8P FFC cable to “T/S OUTPUT” connector.

# 2. Installation

## 2.3 Installation

- ① Please re-mount OE board and please connect provided FFC cables to OE board. (Please refer to below picture.)  
After that, please connect LVDS cable to cub-board of “LVDS-IN” connector.

# 2. Installation

## 2.4 CAN connection

Find OEM LCD cable back of the monitor

As shown above, connect the provided CAN-H wire(green+brown) to original CAN-H wire(white+blue) and connect provided CAN-L wire(green) to original CAN-L wire(white+yellow)

# 3. Installation

## 3.1 DIP Switch

※ **ON : DOWN / OFF : UP**

※ For example :DIP S/W

- input mode: in case of using AV3, Navi(RGB
- No use for OEM navigation
- Rear Camera : in case of connecting toCVBS4

- ▷ DIP S/W : 1 → OFF
- ▷ DIP S/W : 2,3 → ON (input mode skip)
- ▷ DIP S/W : 4 → OFF (A/V3 possible)
- ▷ DIP S/W : 5 → ON
- ▷ DIP S/W : 6 → ON
- ▷ DIP S/W : 7 → ON (CVBS4 possible)
- ▷ DIP S/W : 8 → OFF

PIN	Function	Dip S/W choice
1	RGB input skip	ON : RGB mode skip OFF : RGB display
2	A/V 1 skip	ON : A/V 1 skip OFF : A/V1 display
3	A/V 2 skip	ON : A/V 2 skip OFF : A/V2 display
4	A/V 3 skip	ON : A/V 3 skip OFF : A/V3 display
5	No USE	
6	No USE	
7	Rear Camera	ON : External(A/S) rear camera OFF : OEM rear camera
8	No USE	

※ After changing the settings for DIP switch, reboot the power by disconnecting the power cable.

# 3. Settings

## 3.2 Remote Control

<i>Key</i>	<i>Function</i>
POWER	Unavailable
PIP	A/V 1~2 Mode : Remote control UI Display A/V 3 Mode : Mode switching UI Display
MENU	Activating OSD menu
OK	Making a selection, changing image display
▲	Moving upward
▼	Moving downward
◀	Moving leftward (If you press this button 2 seconds long, you can access the factory mode.)
▶	Moving rightward (If you press this button 2 seconds long, you can reset all the data about user environment.)

# 3. Setting

## 3.3 OSD (On Screen Display) / Analog RGB Mode

### □ IMAGE

- \* BRIGHTNESS
- \* CONTRAST
- \* SHARPNESS
- \* USER IMAGE

: To choose the option among 4 prepared color shade

### □ OSD

- \* LANGUAGE : To change the language displaying on touch OSD (Chinese, English only)
- \* TRANS : Transparency control of the OSD
- \* H\_POSITION : Horizontal movement of the OSD window
- \* V\_POSITION : Vertical movement of the OSD window

- \* RED : Adjusting red
- \* GREEN : Adjusting green
- \* BLUE : Adjusting blue
- \* USER COLOR

: To choose the option by user

### □ UTIL

- \* FACTORY RESET
  - To reset all the values about navigation, DVD screen to factory default. (NOT available for reset of the position value of images, only for functions inside OSD menu)

# 3. 설정

## 3.3 OSD (On Screen Display) / Video Mode

### □ IMAGE

- \* BRIGHTNESS
- \* CONTRAST
- \* SATURATION
- \* HUE
- \* SHARPNESS
- \* USER IMAGE  
: To choose the option among 4 prepared color

### □ UTIL

- \* FACTORY RESET
  - To reset all the values about navigation, DVD screen to factory default. (NOT available for reset of the position value of images, only for functions inside OSD menu)

### □ OSD

- \* LANGUAGE : To change the language displaying on touch OSD (Chinese, English only)
- \* TRANS : Transparency control of the OSD
- \* H\_POSITION  
: Horizontal movement of the OSD window
- \* V\_POSITION  
: Vertical movement of the OSD window

)

# 3. Setting

## 3.4 Factory Mode

**FACTORY mode – Factory mode: press ◀ button 5 seconds long**

### ❑ IMAGE

- \* H-POSITION : Control over horizontal movement of screen
- \* V-POSITION : Control over vertical movement of the screen
- \* NAVI MODEL : DEFAULT, KD900(WVGA), MD7000(WVGA), MYVI(WVGA), PAPAGO(WVGA), GN3000(WVGA), ICUBE(WVGA), MYVI(WVGA), I-ONN(WVGA)
- \* AVOUT SELECT : DEFAULT, AV1, AV2, AV3

### ❑ UTIL

- \* CALIBRATION : Touch calibration
- IR MEMORY : To register value of buttons on the remote controller
- DVD TYPE : Setup for the type of DVD
- DTV TYPE : Setup for the type of DTV
- \* JOG SUTTLE : Setup for use of JOG SUTTLE  
DVD, DTV control  
OSDmenu ON/OFF setting
- \* FACTORY RESET : reset

### ❑ PARK

- \* PARK ENABLE : Setup of rear view parking guide line
- PARK SETUP : Control over position of rear view parking guide line
- \* SAFE ENABLE : To select whether to use SAFE function (NOT to allow watch video while driving) or not

# 3. Setting

## 3.5 Parking guide line setting

**FACTORY mode** – Press ◀ button 5 seconds long on the remote control

### ❑ PARK

- \* PARK ENABLE : Selecting whether to display the parking guide line or not on rear gear (default : OFF)
- \* PARK SETUP : Adjusting the position of the parking guide line (available in PARK SETUP -> V-POSITION, H-POSITION)
- \* SAFE ENABLE : In case of Connecting "Safe" wire from the power cable to the hand break,  
ENABLE – OEM Picture displays in Drive gear position  
DISABLE – No display locked in any gear position

### ❑ PARK - ENABLE

- A. Press the OK button of remote control one more, "V\_POS" will be shown on the right and control moving in vertical direction.

### ❑ PARK - ENABLE

- A. If you set 'PARK ENABLE' as "ON" state, there will be the rear view parking guide line.  
(as shown above picture)
- B. Press the OK button of remote control, "H\_POS" will be shown on the right and control moving in horizontal direction.

**※In case of installing rear camera : Put DIP S/W 7 down to set "ON"(Page 9)**

# 3. Setting

## 3.6 Touch Cablibration

Factory mode: press ◀ button 5 seconds long

- ① press ◀ button long on the remote to run FACTORY MODE
- ② As shown above, go to UTIL-Calibration to set "YES" on Factory mode
- ③ Then you can see "touch calibration" on screen **about 2 seconds long** as shown above. After the word "touch calibration" disappear, touch calibration function will implement. (Just touch "+" shape on screen.) If you succeed, you can see "success". If not, you will see "failure".

# 3. Setting

## 3.7 Remote Control

**FACTORY mode – Press ◀ button 5 seconds long on the remote control**

### Registering value of remote control buttons?

When you want to control DVD and DTV via touch screen (using OSD menu) with other models besides already registered option-SANYO and NECVOX, you can register value of DVD and DTV' s remote control which you have.

Then you can control DVD and DTV via touch screen.

- ① Press ◀ button long or press UP→DOWN→UP→MENU to run Factory mode. Then, go to UTIL-IR MEMORY

There are two options in IR MEMORY as shown above; DTV and DVD. Then you select AV source that you want to set among them.

- ② This is a window for register of DVD' s remote control button value. At the moment just select a menu that you want to save. (Select "DTV in options of IR MEMORY" if you want to save values of DTV' s remote control. And follow the instruction below.)

Instruction>

- a. Select "POWER" in OSD menu, then press "OK" on remote control. (as shown above)
- b. If the marked area flickers as shown above, press "POWER" button on the remote control of DVD that you want to use. (continued in the next page)

# 3. Setting

## 3.7 Remote control

Instruction> continued...

c. The values that you registered will appear as green text in the marked area on pressing the button. And the values will be saved automatically.

d. Register remain buttons' value in OSD menu like the above-mentioned.

③ After register, select "INPUT" in OSD menu and press "OK". Then you can see confirmation window as shown above. At the moment, if you choose "YES", all the values that you entered will be saved. If you select "NO", the values won't be saved.

(If data is saved, DVD TYPE and DTV TYPE will be changed to "USER" automatically.)

If you see "SUCCESS" on screen, the data is saved clearly and you can control DVD via touch screen. BUT, you MUST change the option in DVD(DTV)/UTIL/FACTORY to "USER".

# 3. Setting

## 3.8 DVD, DTV model

**FACTORY mode** – Press ◀ button 5 seconds long on the remote control.

### ❑ DVD TYPE

### ❑ DTV TYPE

### UTIL – DVD/DTV TYPE

If DVD/DTV type that you want to use is not NECVOX or SANYO, you have to register values of the remote control that you want to use in the "IR MEMORY" section and set the "DVD TYPE"/"DTV TYPE" to "USER".

Unless you do this process after saving the data, you can NOT control DVD/DTV via touch screen.

DVD TYPE : NEC/SANYO, DV-108, SANYO-1, SANYO-2, USER

DTV TYPE : PIONEER/PANASONIC, USER, CMMB

※ If you enter data in "IR MEMORY" section in FACTORY mode, "DVD TYPE"/ "DTV TYPE" will *automatically* be saved to "USER".

# 3. Setting

## 3.9 Switching mode by CAN wire

※ find this button from back of the steering wheel.

### Mode Switching

In case of CAN connection, Driver can switch modes with the this button

Press long : mode switch  
Press short : return to main image

## 4. Trouble Shooting

---

### **Q. Unable to switch the mode**

- A. Check whether Ground cable or IR cable is connected  
Check whether LED is on, if not, check POWER cable is connected properly.

### **Q. All I got on the screen is black.**

- A. Check second LED lamp of the interface is on, if not, check A/V sources connected are working well.  
(Second lamp indicates AV sources connected works well.)  
Check interface connection has been done well

### **Q. Displayed image color is not proper. (too dim or not suitable color)**

- A. Factory Mode -> Unit and try Factory reset, if it still does not work, contact the manufacturer for the further instruction.

### **Q. Rear camera image does NOT appear.**

- A. Set DIP switch #7 in "ON"

### **Q. Unwanted A/V mode is displayed.**

- A. Check DIP Switch Setting.

### **Q. OEM image is not displayed.**

- A. Check interface's LCD In/Out cable connection. If the status keeps on, contact the manufacturer.

### **Q. Screen only displays white like left picture.**

- A. Check LCD out cable is connected well, if this status keeps, inform the manufacturer.
