

Installation Manual

Multimedia Interface for Mazda

Manual Date : 2020.10

Car compatibility: **CX9 2017~**
MAZDA3 2017~
CX5 2015~

Components: Interface Main*1
Sub Board*1

Interface Input / Output specification :

Input: LVDS IN (Car System) *1
HDMI *1
Analog RGB *1
AV *1
CVBS(Front Camera) *1
CVBS(Rear Camera) *1

Output: LVDS OUT (Car System) *1

Power Spec:

Input Power: 8VDC ~ 18VDC

Consumption: 5WATT

Switch input mode:

1. External video sources skip function: Able to control input videos on and off via Dip switches
2. Able to switch videos via the remote, button switch and original OEM button
3. Able to detect the rear view camera by CAN or rear lamp cable

• Trouble shooting

Q. I cannot change mode

A. Check connection of Ground cable and IR Cable. Check LED lamp is on, if not check connection of POWER cable.

Q. All I got on the screen is black.

A. Check second LED lamp of the interface is on, if not, check A/V sources connected are working well. (Second lamp indicates AV sources connected works well) Check interface connection has been done well.

Q. Displayed image color is not proper (too dark or unsuitable color)

A. Press ► button on the remote control for 2 seconds and check how it goes, if it does not work, inform to manufacturer.

Q. I cannot watch the rear camera on the screen

A. Set the DIP switch #7 as state "ON".

Q. Set mode not appear

A. Check DIP Switch.

Q. OEM image is not displayed.

A. Check interface's LCD In/Out cable connection. If the status keeps on, inform to manufacturer.

Q. Screen only displays white color.

A. Check LCD out cable is connected well, if this status keeps, inform to manufacturer.

Q. If no image is shown on screen after connecting CAN wire with Park gear.

A. Go on the "FACTORY MODE", check "UTIL-Rear Select". If "LAMP", change the setting as "CAN" with the remote control. (* when connecting Rear-C wire of LAMP power cable to Backup lights, Setting should be like this / CAN : if controlling rear camera with CAN wire)
