

Installation Manual

Multimedia Interface for Opel R4.0

Manual Date : 2019.10

• Specification

Car Model of Compatibility:

Opel - R4.0 IntelliLink 7"

Adam 2016>

Corsa 2016>

Mokka 2016>

Chevrolet – Intellilink 7"

Cruze 2016>

Trax 2016>

Malibu 2016>

Components:

Interface*1

Sub Board*1

Interface Input / Output specification:

Input:

LVDS*1

CVBS(Rear camera)*1

CVBS(Front camera)*1

Output:

To LCD*1

Power Spec:

Input Power:

8VDC ~ 18VDC

Consumption:

5WATT

Switch input mode:

1. External video sources skip function: Able to control input videos on and off via Dip switches
2. Able to switch videos via the remote and button switch
3. Able to detect the rear view camera by CAN

• Components

Main Board
QCPASS1354

Sub board
QCPASS0981

Power Cable
HPOWER0144

Jack By Jack Cable
HARETC0210

SYSTEM VERSION : SW & IF version of the interface

• Trouble shooting

Q. I cannot change mode

- A. Check connection of Ground cable and IR Cable. Check LED lamp is on, if not check connection of POWER cable.

Q. All I got on the screen is black.

- A. Check second LED lamp of the interface is on, if not, check A/V sources connected are working well. (Green lamp indicates AV sources connected works well) Check interface connection has been done well.

Q. Displayed image color is not proper (too dark or unsuitable color)

- A. Press ► button on the remote control for 5 seconds and check how it goes, if it does not work, inform to manufacturer.

Q. I cannot watch the rear camera on the screen

- A. Set the DIP switch #7 as state "ON".

Q. Set mode not appear

- A. Check DIP Switch.

Q. OEM image is not displayed.

- A. Check interface's LCD In/Out cable connection. If the status keeps on, inform to manufacturer.

Q. Screen only displays white color.

- A. Check LCD out cable is connected well, if this status keeps, inform to manufacturer.

Q. If no image is shown on screen after connecting CAN wire with Park gear.

- A. Go on the "FACTORY MODE", check "UTIL-Rear Select". If "LAMP", change the setting as "CAN" with the remote control. (※ when connecting Rear-C wire of LAMP power cable to Backup lights, Setting should be like this / CAN : if controlling rear camera with CAN wire)
