Multimedia Interface for Mercedes Benz

NTG5.5 & NTG6.0

W177-Y19-HLI

Revision History

2024.11 : *remove sprinter 7inch monitor from compatibility*

car-solutions.com

Specification

Compatibility:

- E-Class 8.4"/12.3" 2016~**
- S-Class 12.3" 2018~**
- Sprinter 10" 2019~**
- C class 7"/10" 2019~**
- A Class 7"/10" 2019~**

- **Support Multi-Touch Function**
- **Support rear PDC PIP screen mode**
- **Not available on sprinter 7inch monitor**

Interface Input / Output specification:

Input:

- LVDS x1
- A/V x2
- CVBS(Front Camera) x1
- CVBS(Rear Camera) x1
- HDMI x2 [Optional]**

Output:

- AUDIO OUTPUT x1
- VIDEO OUTPUT x2

UTIL

FACTORY RESET: Factory mode reset (YES/NO)

AUDIO OUT: Select audio channel transmitted through AUX (Default / AV1 / AV2 / HD1 / HD2)

AV1/AV2 IR: Able to control UI remote by touch

CAP TOUCH: Select capacitive touch screen model
(SE 12.3\" / C 10\" / E 9\" / SE 24\" 5077 24\")

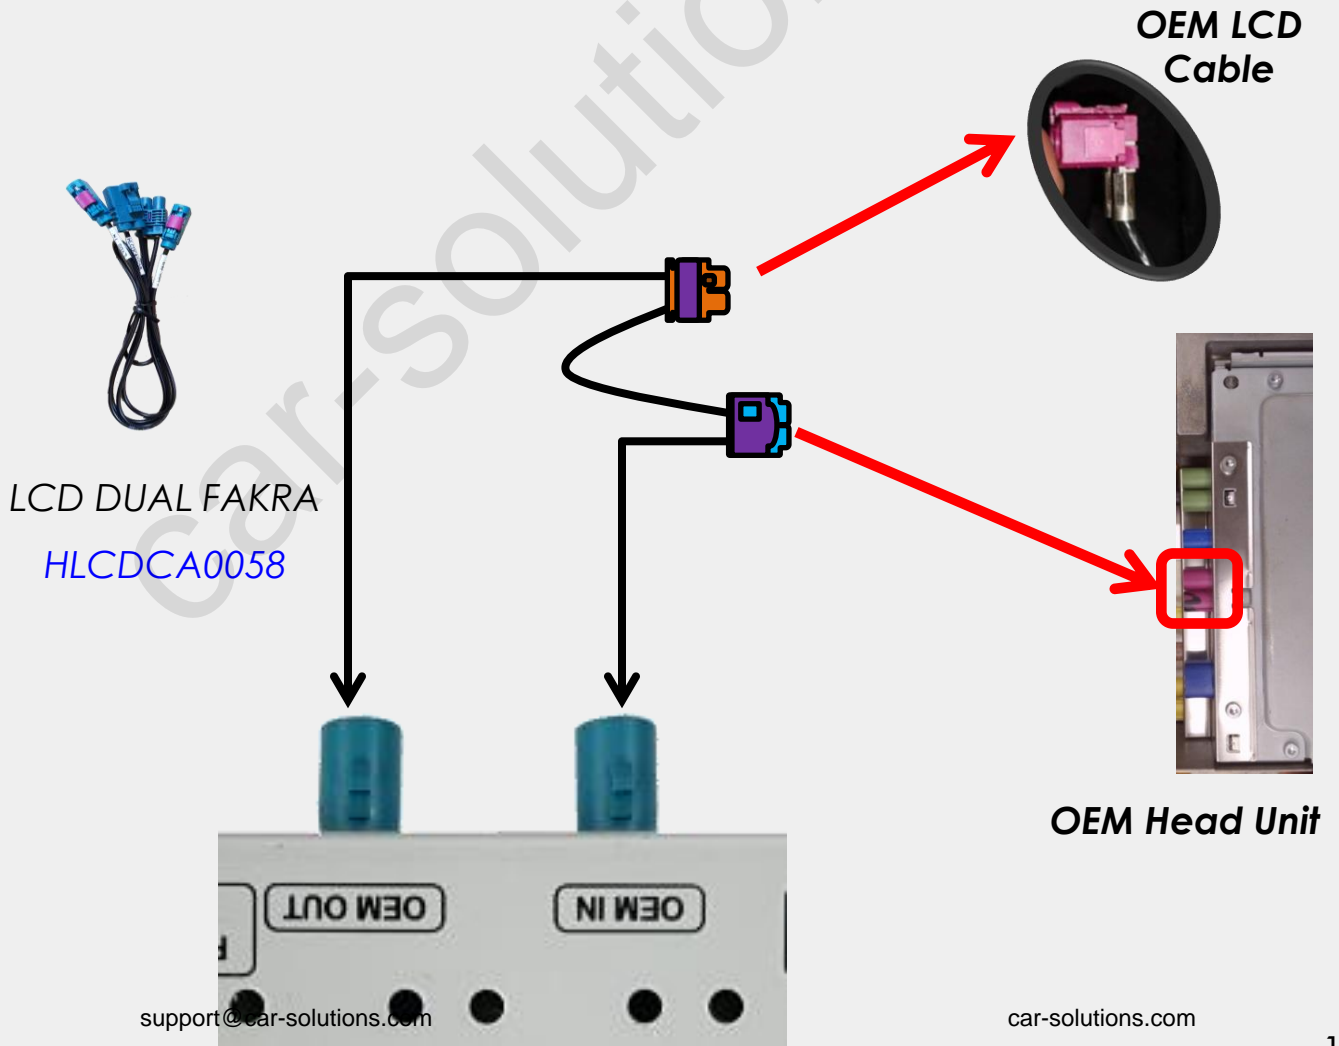

MODE KEY: Mode change button selection (BACK / NAVI / HOME)

LCD IN/OUT connection_NTG6.0

* NTG6.0 10inch Monitor

1. Disconnect the OEM LVDS cable from the backside of head unit and connect it to the female connector of supplied LVDS Fakra cable
2. Connect the male connector of supplied LVDS cable to the backside of monitor

LCD IN/OUT connection_ NTG5.5

LCD DUAL FAKRA
HLCDCA0058

* NTG5.5 10inch / 12.3inch monitor

1. Disconnect the OEM LVDS cable from the backside of head unit and connect it to the female connector of supplied LVDS Fakra cable
2. Connect the male connector of supplied LVDS cable to the backside of monitor

LCD IN/OUT connection_ NTG5.5

LCD DUAL FAKRA
HLCDCA0058

* NTG5.5 7" / 8.4"

1. please modify the pin location of provided LVDS cable, otherwise, screen display will be black.
2. Swap location #1 and #2 both in male terminal and female terminal.

Power/CAN connection_ NTG6.0

1. Disconnect the OEM power cable from the backside of the command
2. Connect the OEM cable to the supplied female CAN connector
3. Connect the supplied male CAN connector to the backside of the monitor
4. Connect supplied CAN cable to the supplied power cable and connect it to the Interface

Power/CAN connection_ NTG5.5

1) Find a bunch of cables behind the head unit

2) Remove the black connector

3) Take away the black connector cover

4) Connect the OEM connector to the female connector of supplied Gear CAN cable

5) Put the black connector cover to the male connector of Gear CAN cable

6) Connect the male connector to the bunch of cables

NTG5.5 Gear CAN
HARETC0388

Power/CAN connection_ NTG5.5

7) Please unplug marked original connector and connect it to the supplied Jog CAN female connector.
Plug in supplied Jog CAN male connector to the marked place.

Connect supplied Jog CAN cable and Gear CAN cable

NTG5.5 Gear CAN
HARETC0388

NTG5.5 Jog CAN
HARETC0389

Power Cable
HPOWER0279

Lastly, connect supplied gear CAN Cable to the supplied power cable and connect it to the Interface

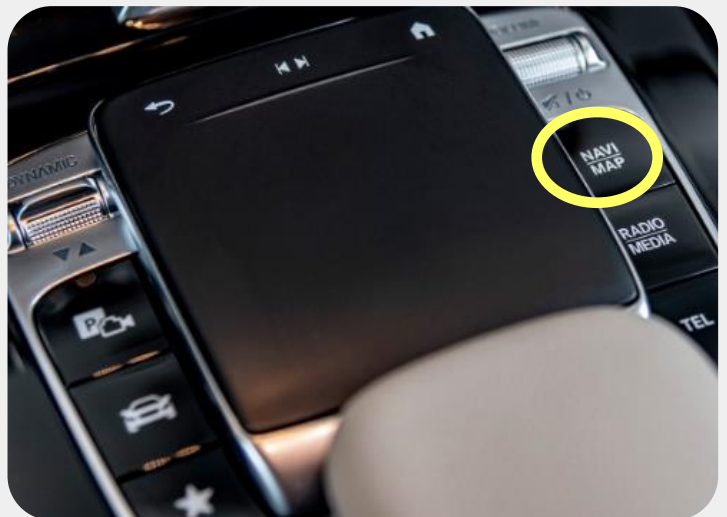

OEM Button Use

* Press high lighted OEM button for 3 seconds long to mode switch

NTG5.5

NTG6.0

OEM Button Use_ NTG6.0

* Please short press 360 camera button in the external mode to switch OEM 360 camera screen.

And short press again this button to switch back to previous mode.

OEM Button Use_ NTG6.0

1. Switch to OEM in Rear Camera Mode : *Short press below high lighted button in Ext. rear camera mode to switch OEM screen*

2. DVD, DTV OSD Control : *Slide arrow button right and left for DTV and DVD channel up(+) and down(-)*

HD/AV Screen Ratio Change_ NTG6.0

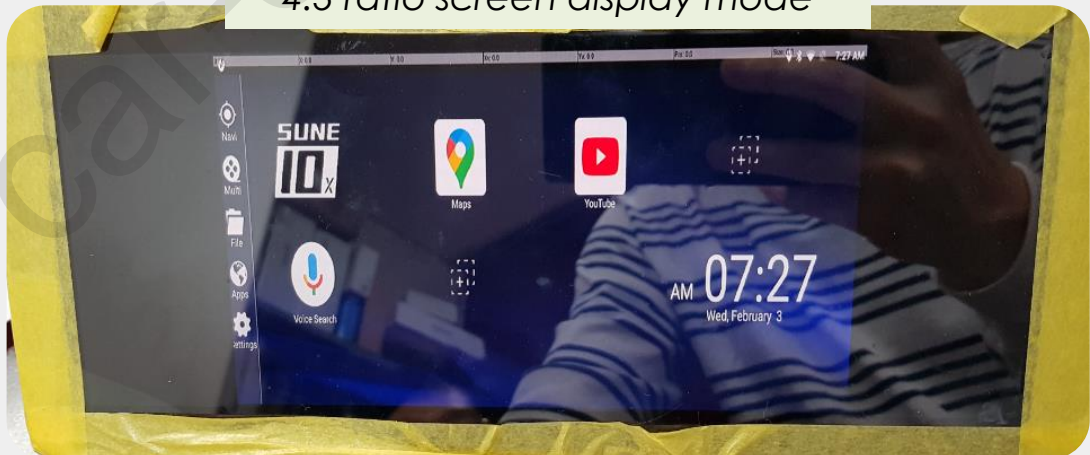

Please press high lighted button for 3secs long to change screen display ratio. [HDMI / AV Mode]

Full screen display mode

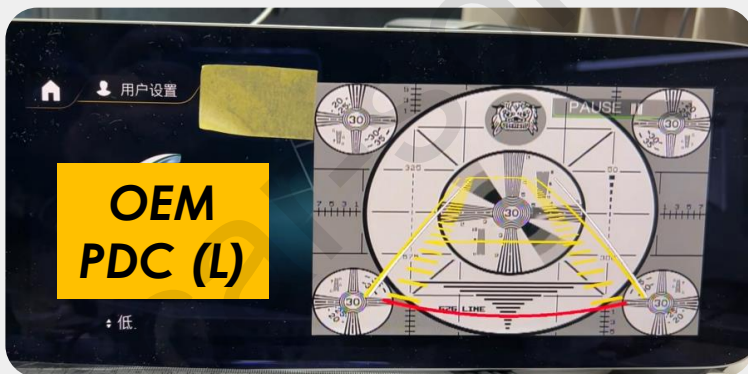

4:3 ratio screen display mode

Rear Camera Split Screen

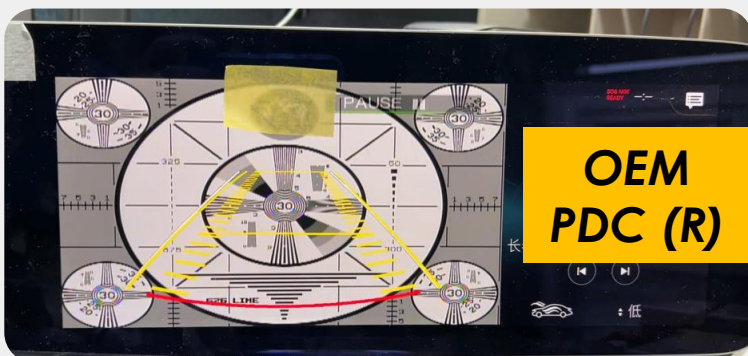

Please press original Jog Dial Return or Navi button for 3secs long
Or short press remote control PIP button to change rear camera split screen mode.

Ext. Rear Camera Full Screen

<- This OEM PDC screen is a little bigger (W205 2020)

* Added on FW240206

<- This OEM PDC screen is for right steering wheel.

* Added on FW231213

Rear Camera Demo_ ML 10inch

Rear Camera Demo_ A Class 7inch

QROIX Demo

QROIX Connection by LVDS Input

- **Factory Settings -> FUNC -> LVDS MODEL : QROIX**
- **QROIX power and audio cable connect to the car.**

QDISPLAY Connection by LVDS Input

- **Factory Settings -> FUNC -> LVDS MODEL : SE-CP**
- **QDISPLAY power and audio cable connect to the car.**

Control QROIX by OEM Button

Button	Operation	Function
Touch Pad	Rotation	Mouse Function
	Push	Select/Confirm
	2 Point Drag Up / Down	Page Up/Down
BACK	Short press	Back to previous page
HOME	Short press	Back to main launcher
 	Short press	Show recent apps to make split screen

Control QDISPLAY by OEM Button

* These functions can be used when NAVI MODEL selected as QDISPLAY or SE-CP.

1. **Return button short press : selection**
2. **Home button long press : si-ri**
3. **Wheel up/down : Next/Previous track**
4. **Wheel left/right : Moving left/right**
5. **Wheel up long press: Home Menu**
6. **Wheel down long press : Going to the bottom menu on Android Auto**
